

Why are more therapists using Current Medical Technologies ?

Over 12 years experience working with major manufacturers to provide clinicians with systems designed to meet their needs and budget.

We stock a variety of accessories including vaginal weights, the FPT system, PMTx and much more.

CMT provides a full service home rental program. We offer sEMG, NMES, PFS, IF, TENS and more. From pre-certification to billing CMT is a turn-key DME provider.

CMT offers a full service lymphedema program to further support manual compression techniques at the in-home setting.

We stock over 12 different internal and external sensors that work with a variety of instruments ranging from sEMG to NMES and Manometry!

We are always building and adding to our specialized library. We are also a great resource for supportive studies and Women's health information.

Proud to be this years CSM Sponsor for Dr. Pauline Chiarelli
